

Residencies at Tanline Printing

Through our partnership with the Tucson Community Print Shop, Tanline Printing is starting a residency program. We are seeking artists, both local and from out-of-town, to submit proposals for short-term (1-4 week) projects to work on at Tanline. The goal is to provide space and equipment, to share knowledge, enrich our community, and make connections with artists throughout the state and country.

The shop is set up for screenprinting, letterpress, relief and intaglio printing, record cutting, and basic woodworking. We are undoubtedly a print shop, but a print shop with an open mind for cross-disciplinary work (sculpture, records, tapes, and books have all been made here). There is also possibility for residents to teach a workshop, exhibit their work at Tiny Town (a small gallery space downtown on Toole), and to set up visits with other organizations in Tucson. In your proposal please make a note of anything you can bring to our community. In exchange for using Tanline's equipment and space, we ask that residents donate some of the work that they do here for Tanline to later exhibit and sell.

Equipment at Tanline

Screenprinting

28x25" UV exposure unit
50x42" Murphy bed arc exposure unit
Three 2ft x 38" vacuum tables
Cincinnati one-armed bandit 45x29"
Shirt press
Cylinder press
Squeegee sharpener
18x24" heat press
Lawson XL auto clamshell

Relief/ Intaglio

30x40" etching press
12" etching press
Vertical etching tank (no acid right now)

Bookmaking

Nipping press
Punching jig
Paper drill press
Floor saddle stapler
Padding press

Letterpress

14x14" sign press
8x12" treadle-powered C&P Vandercook 219 OS
13x17" Vandercook proof press
Two 5x8" Kelsey Excelsiors
Two 3x5" Kelsey Excelsiors
10x15" C&P (for sale)
7x11" Golding No. 3 (for sale)
Four cabinets of lead type
Hamilton composing stone
Kingsley foil stamper
NuArc Fliptop Platemaker for photopolymer plates
7x11" foil stamper
Lots of foil type

Frame making

Chop saw
Router
Hand and belt sander
Circular saw
Framing clamps
Pneumatic staple gun
